
Autocomcdpprosoftware download

Can anybody tell me how can I get only the last word on each line A:

Using sed and xargs (while also using the output from awk): \$ awk
'BEGIN{FS=" "}{print \$0}' file | sed -e '1,/^[^]*[]*\$/d' -e's/^[^]*\$//'
BEGIN{FS=" "}{print \$0} Print the whole line as-is: \$ awk
'BEGIN{FS=" "}{print \$0}' file .
