from view I am using MVC4 aspnet core. i am currently trying to set the value from a view to the Controller but to no avail.
Model : public class OwnersViewModel { public int OwnerID { get; set; } public string FirstName { get; set; } public string
SecondName { get; set; } } Controller : public class OwnersController : Controller { public IActionResult Index() { var model =
new OwnersViewModel { OwnerID = 123, FirstName = "John", SecondName = "Doe" }; return View(model); } } View:
@model OwnersViewModel @Html.LabelFor(m => m.FirstName) @Html.TextBoxFor(m => m.FirstName)
@Html.LabelFor(m => m.SecondName) @Html.TextBoxFor(m => m.SecondName) @Html.ValidationMessageFor(m =>
m.FirstName) @Html.ValidationMessageFor(m => m.SecondName) I am trying to make it so that once they have entered the
value they just tick the checkbox next

I can see the files appearing when I use the stdout option. I found this solution on GitHub and it worked for me but I am not sure
that I want to use the GitHub username as the file to be dropped. How do I point to the file to be dropped? A: In the command
line, you can specify multiple files as arguments. The easiest way to do that would be to make an array of the filenames (one per
line): for i in ""; done If that doesn't work, try single quotes, either single or double: for i in ' '; done for i in " "; done if that
doesn't work, try escaping the characters, but you must escape the ' and the " ; done for i in ' '; done for i in " "; done Note that
you need quotes around the filenames and the contents of the filenames and the destination, because otherwise these constructs
are interpreted literally. This works for me: for i in ; do cp " > /dev/null; done With the double quotes, both filenames and the
destination are treated as strings, and then you have to escape the . Finally, you can use to omit the first word of your command,
which is common for scripts. 3e33713323
