Reality Film Farm Trailer:

Free HudSight - Custom Crosshair Overlay PC/Windows **[Updated]**

Cozy Cabin is an island-based sim. You start out with an island, and if you're really lucky you'll get more. This is where you'll raise crops, build a house, a barn, maybe a chicken coop. The island expands as you farm and grow your crops. You'll need sunlight to grow crops, so please build lights and grow rooms with windows! :) When you grow crops, you can use their produce to either buy different structures for your house, produce military grade guns, or make fancy flour. You'll also need to collect light in order to grow plants, and to harvest crops. As the island gets bigger, the fireflies will swarm and become a challenge for you to survive! The environment and the game will be constantly changing with time, always looking for new interesting challenges. Happy farming! - Features: - - -
-Terrain -Terrain tiles will grow with your plants
-Many terrains are movable, to go between different parts of your island!
-Different water levels, each with unique possibilities!
-Many different flower types in different colors

-Chukka Booties - Miley Cyrus Miley Cyrus, in typical princess style, presents us with the prettiest pair of chukka booties in ode to her arty, edgy alter ego Sasha Fierce. The white patent leather bootie has a thick cross-tie and a scalloped trim for that total girly effect. The pair is beautifully matched with a pair of pristine white faux-leather leggings and a crop-top-like knotted bolero. Fashioned in Japan using premium denim, these slinky leggings have dual seamed leg slits that braid in the front, oversized pockets, a welt pocket at the back, a back slit and a front zip closure. The chukka booties are available at select Nordstrom stores. - 2 * y + 1 3 6 . W h a t i s t h e g r e a t e s t c o m m o n d i v i s o r o f
