achievements! My Town is an exciting and beautifully-designed adaptation of the card game Munchkin where players take on the role of the town's resident heroes, attempting to defeat the cruel tyrant King Deepfroth. New and seasoned players can all enjoy this entertaining game together or separately. A host of quirky characters and locales, challenging puzzles and original music make for a lively Munchkin experience. The game will have players collecting treasure, fighting monsters, racing away from monsters, and completing levels quickly to keep the adventure going. In My Town, players begin in the beginning of town and will unlock new areas as their adventure continues. As they explore town, players collect gold and use it to buy and complete items to help them on their quest. Items will not always be available. Players can challenge the enemies they come across in the My Town game, which will help to upgrade their hero's equipment. My Town offers a series of features that will become more pronounced as the game progresses. These include: - Many unlockable items, from new gear to the gold nugget keys to every level - My Town Auction to sell items players do not need and turn in the gold to unlock new areas - Challenge system to help players power up

This new FPS made by me and my community. I have always wanted to make this game. To create a game where I have no control over the

development. I'm not controlling the producer that is coding the game. All I'm doing is CODING the game so it can be played. I was never good at writing a video game story so I'm just going to put it all out there. I will just say the one, and only one, story: Earth's Journey to the Alpha Centuari (there will be a prequel). I'm having a blast making the game with my community. I hope you enjoy it too. As always, I will be on [twitch.tv/JStabley](http://twitch.tv/JStabley) and [youtube.com/JStabley](http://youtube.com/JStabley). I'll also try to hit devlogs and live streams on [twitter.com/jstabley](http://twitter.com/jstabley).

**B1 ARUBA The BMW 8 Series is the new family saloon of the BMW Group. With twin-turbocharged and intercooled 4.4-litre V8 engine with Variable Valve Control and double cams, this powerplant develops 420 hp and 630 Nm of torque. The twin-turbo V8 engine is the fastest production engine BMW built. The off-line shift lubrication system in combination with an additional charge air cooling system with fast cooling function, provide perfect combustion. The result is a staggering top speed at 0.91 m/s with M Double Din navigation system and an entertainment system. The BMW E-class is the 4-door premium class saloon of the BMW Group. With Twin Turbodiesel and a high performance engine, this powerplant develops a total of 440 hp, produces power over 3000 rpm, accelerates the E-class from 0-100 kph in 4.9 seconds, offering class-leading power-to-weight ratio and acceleration performance of 0-60kph in 4.2 seconds. Engine is mated to Efficient 4-speed auto and features continuously variable valve timing and double cams. The BMW 8 Series Gran Turismo Coupé is a two-door coupé concept presented at the Frankfurt Motor Show in 2009. In development at the BMW Designworks USA studios in California, the car was inspired by the BMW 8 Series. A four-door version will follow in mid-2010. The Audi A8 has been redesigned for the new generation. The interior features new elements and materials, a high-contrast colour scheme, new coatings and new services. The concept car features innovative technology and novel and unusually small and shape-optimised flowing design. The design concept is clear and unmistakable, with its two-tone colour and structured element treatment. Spencer Schenk Porsche Communications - Der Liberty Ambassador 03/08**
