**What's new in Fifa 22:**

- **A brand new gameplay engine.** Powered by the new UNIC Engine 4, FIFA 22 introduces a new core gameplay system designed to satisfy the needs of every player, as well as featuring all-new animations and targeting logic. The new system is designed to create more fluid, elegant gameplay while also providing fans with the control they require. FIFA 22 also introduces new gameplay mechanics to both FIFA Interactive World Cup and Club Championship modes, as well as all offline modes, to enhance fan engagement and create a deeper FIFA experience.
- **FIFA's most demanding fan-requested feature, Offside,** has been implemented into the new engine. FIFA 22 Offside takes the new engine's accuracy to a higher level by using a combination of human players and computer-based intelligence, providing a more robust offside decision mechanic. Players can deactivate an opponent's offside advantage via pass or chip, with the ability to change the emphasis from the playmaker up to the defenders.
- **In FIFA 22, for the first time ever, the new FIFA 2K Engine's first pass is now included in an educational content title, with the FIFA 2K Edu Challenge.** Using a series of 26 challenges, fan-favorite track players and managers will help players better understand the intricacies of the new engine's passes, while earning extra packs of Ultimate Team and College Draft cards.
- **Advanced Player Awareness (APA)** has been updated with new and improved algorithms, including adjustments to the player acceleration, artificial intelligence, and overall player physics in FIFA 22. The new network APA system uses the velocity of the ball as a means to place the player at the correct location in relation to the ball and whether they are passing or dribbling. This can be seen in a number of different areas, like: delivering a perfect cross or pass; using an inside-out pass while under pressure from an opponent; or receiving a through-ball from an out-of-bounds pass.
- **FIFA 22 introduces the "GGX Era", an additional new "Global Game Pass Era."** This new era is based on the Premier League rules and regulations that were introduced from 1996 to 2005 and, on FIFA 22, allows for more accurate and realistic moving of players and situations during this period. In addition, another new feature is playable displays in the player presentation to closely reflect the presentation
